ISA credentials are valued and trusted because they let consumers know that you possess a high degree of knowledge about caring for and maintaining trees. When developing an exam, a panel of subject matter experts from around the world completes a job task analysis and then writes an exam that encompasses the defined skills. ISA credentials build expert knowledge and reflect the professional skills sought by leaders from the public and private sectors, including training, academia, and government organizations.

This course is designed to provide a comprehensive education in arboriculture as well as prepare individuals for the ISA Certified Arborist exam. **NOTE: You must apply to take the ISA Certified Arborist Exam separately from this class registration. Applications can be obtained at <https://www.isa-arbor.com/Credentials/Exam-Information>.**

Instruction Will Include:

	Tree Soil, Water Management, Tree Nutrition & Fertilization and Plant Health Care (PHC)
	Pruning, Tree Support & Lightning Protection, Tree Worker Safety and Climbing & Tree Work
	Tree Establishment & Installment, Tree Assessment & Management, Trees and Construction, Tree Selection and Urban Forestry
	Tree Biology/Anatomy, Tree Identification and Diagnosis and Plant Disorder
